## Trip Overview

We provide a Manaslu Helicopter tour, pick up, and drop off at your suitable area of the Manaslu range every year. Mount Manaslu is the **eighth-highest** mountain in the world.

It is in the Gorkha District to the west-central part of the [Manaslu Conservation](#) area in Nepal, known as the "Mountain of the Spirit." Similarly, it is in the **Manastiri Himalaya range**. The Mt. Manaslu trekking trail is still restricted, but a local trekking company arranges such trekking with Special Permits.

Contact us by Phone or **Whatsapp at +9779851033819** for information, cost, Itinerary, and price for 2024 and 2025.

Typically, Manaslu trekking starts from Kathmandu to **Arughat or Sothi Khola, and The** distance is 138 km. But, nearly 100 KM is a gravel road.

Suppose you feel uncomfortable driving on the gravel road; Boundless Adventure provides you pick up and drop off by Helicopter service even at the beginning of the trekking after the Larkey-La pass.

I want to travel to Soti Khola from Kathmandu by Helicopter, enjoying the glorious view of Mt. Manaslu and including the northern Himalayas series like Ganesh Himal and [Langtang Ranges](#). Of course, there is no doubt a gravel road after crossing Larkey-La.

**Boundless Adventure** provides two different ways for Manaslu trekking and hiking: one is by bus, and the other is by **Helicopter tour Manaslu** for your comfort.

Marvelous views along the trekking trails and attractive opportunities to experience the Tibetan culture include the natural and classical lifestyle of Tibetan Sherpa peoples around the Manaslu region.

**In addition**, you can observe the stunning scenery of awesome **Buddhist Monasteries** and Stupas made before the semi-centennial (the half-century).

Moreover, you can follow the ethnic-cultural performance of Gurung, Rai, Sherpa, and Tamang in different lifestyles. By Helicopter tour and hiking, you can find non-developed and unspoiled traditions and culture in the Manaslu area.

## Why Manaslu Helicopter Tour?

As mentioned above, the Manaslu region is a remote and restricted area with no transportation, so the helicopter is the best choice to explore. Because of the road construction, it isn't easy to go through the street. Likewise, In the Rainy season, roads will be muddy, and landslides might occur, so it is better to have a helicopter flight.

## Are Permits Required for the Manaslu Helicopter Tour?

Yes, having the permit with you is necessary even though you are riding a Helicopter. The restricted licenses are allowed for at least two people; if you are a Solo trekker, you cannot get permits. We probably have some other groups contact us. You need three different permits;

- 1) is for special permits (For restricted)
- 2) Manaslu [Conservation Area Permit](#) (MCAP),
- 3)Annapurna Conservation Area Permit (ACAP) are the three essential permits for the Manaslu region trekking.
